Someone recently said, "Assertions about the importance of HBD [human biodiversity] are rife on the internet among high-IQ bloggers." We thus created the following bibliography to aid those interested in human biodiversity. Are People Born Gay? The Biological and Genetic Basis for ... Sexual orientation is an abstruse topic with regard to human sexuality. Biologically, human beings, like most mammals, produce two sexes (males and females) that are encoded genetically by the sex chromosomes (X and Y). A Systems Approach to the Study of Human Behavior - Abnl A worldview, conceptual framework, or model is a critical component of one's vision of the possibilities for human learning and development as it defines the important variables to consider and the relationships among those variables. There are a number of different philosophical positions that provide a foundation for organization and interpretation of empirical data into models. How Hardwired Is Human Behavior? - hbr.org The central proposition of evolutionary psychology—that human beings retain the mentality of their Stone Age forebears—gathers its strength from six convergent sources of scientific research. Arthur Robson's Home Page - Simon Fraser University I have been persuaded for about 20 years by the idea that a strong light can be shed on modern human economic behavior by considering its biological and anthropological basis. I wanted to otherwise stick to the usual theoretical methodology in carrying out this program. Research on this topic ... SOCIAL COGNITIVE THEORY OF PERSONALITY 6 Human behavior has often been explained in terms of one-sided determinism. In such modes of unidirectional causation, behavior is depicted as being shaped and controlled by David Matsumoto 220— —Factors of Influence address those needs, and the contexts in which people live. Culture is created as people adapt to their environments in order to survive, and it results from the process
